

Dear Mr. Kutys,

Thank you for your request. Bilfinger will honor its commitment to build the investment as planned. It will further continue to establish Bilfinger Mars Offshore as a technology leader for monopoles and jackets in Europe. The workplaces are not at risk, and the employment schedule - present staff and future production workers - will be implemented according to plan, which will fit to the actual stages of the investment situation.

Best regards

Sascha Bamberger
